

## **Tourism Information Centers Data Overview**

### **General Description**

The New York State Thruway Authority's Mission Statement:

We offer a user-fee supported Highway and Canal System that delivers high levels of safety and service.

Staffed Tourism Information Centers (TIC) are located at several travel plazas and interchanges along the Thruway system. At these centers, travelers may obtain literature about destinations and attractions in New York State and directional assistance.

Some TICs operate year round and others are seasonal. All TICs located within the Thruway Travel Plazas operate from May through October, at a minimum.

Highway "?" signs with additional "Tourist Info" panels are posted along the Thruway directing motorists to TICs at Travel Plazas, and centers that are open 7 days a week, 8 hours per day at interchanges or within one mile of a Thruway interchange.
